

Multilayer production with a high-precision registration system

Targomat-IV Post-Etch registration and Layup tooling-hole drilling machine

ExpoALIGNER CCD panel to film alignment machine

Layup and Glueing table

SFU Target spot facing machine

Swiss Quality

- HIGH-PRECISION Multilayer Registration and Layup for Pin-Less Lamination
- Multiple Process ExpoALIGNER for Innerlayer, Outerlayer and Soldermask alignment to exposure
- Multiple Process Targomat-IV for Innerlayer Registration and Post-Etch tooling holes drilling
- Multilayer-Stack-Layup and Glueing-Table for precise fixation to Pin-Less Lamination
- Multilayer Alignment-Target Spot-Facing milling machine to Targomat-IV tooling-hole drilling
- Multiple Process Targomat-IV for tooling-hole drilling to Pin-tooling for CNC-Drilling machines
